Science and
Technology of
Surface Finishing.

International Union for
Surface Finishing

(Under the auspices of IUSF)

ISF 2026

Metal Finishers' Association of India (MFAI) is pleased to announce the organizing of a three-day event of Conference and Exhibition called, NDIAN SURFACE FINISHING 2026 (ISF 2026) from 18th to 20th February, 2026 at Bangalore International Exhibition Centre (BIEC). This event is being organized under the auspices of International Union of Surface Finishing (IUSF).

After the grand success of ISF 2017 and ISF 2024 in Delhi and Delhi-NCR respectively, there has been demand from surface finishing industry to organize similar event in southern part of India. This is an effort in that direction.

In view of the profile of the industry in south, our focus will be relatively more on the products, processes and technologies for PCB, EV, Semiconductor and aviation sector. Also, focus will be on the eco-friendly products and processes to replace hazardous chemicals.

MFAI, a premier organization, would provide the surface finishing industries and research institutions a wide platform to showcase their new technological developments.

As in the past, MFAI will organize parallel three day conference covering subjects on focus areas by the speakers including from overseas.

A Souvenir will be released to commemorate the occasion.
